Professional Experience

Global Product Leader & VP Product Management | JPMorgan Chase | Commercial & Investment Banking – Bournemouth, UK

Aug 2025 to Ongoing

JPMorgan Chase is a global leader in financial services, offering commercial and investment banking solutions to clients worldwide. The Commercial & Investment Banking division drives innovation, digital transformation, and strategic growth across global markets.

Role:

- Accountable for **product strategy and portfolio** leadership
- Spearheading AI adoption** to optimize **Wholesale KYC** Operations and **Digital Documentation** Services (DDS).
- Responsible for delivering transformative solutions, **enhancing compliance**, and improving **operational efficiency** across document processing, **document fraud** detection, and **high-value transaction** monitoring

Project Profile: AI-Driven Document Operations Transformation (WKO, DDS, SMB Onboarding)

Led the enterprise-wide adoption and enhancement of AI technologies across WKO Operations, Digital Documentation Services (DDS), and SMB client onboarding. Initiatives included automating document processing, workflow integration, data validation, annotation, confidence scoring, and minimizing human-in-the-loop dependency through RLHF (Reinforcement Learning from Human Feedback). These efforts focused on improving operational efficiency, compliance, and scalability for CIB stakeholders.

Key Achievements:

- Delivered a projected **28% improvement** in **operational efficiency** by 2026 with annual saving of over **\$8M cost saving**, reducing manual workload and accelerating document processing.
- Enhanced DocAI accuracy and reliability by calibrating AI models and prompts with RLHF techniques and human feedback, enabling scalable and autonomous document extraction and validation.
- Developed automated annotation tools and **confidence scoring**, improving auditability, compliance, and establishing robust audit trails.

Project Profile: Strategic Gap & Recommendation – Corporate Client Onboarding & AI-Driven Document Fraud Detection:

Identified **gaps in product platform strategy** regarding fraud impact evaluation, cost and **investment appraisal**. Developed business case and convinced stakeholders to prioritize this as a key “big rock” initiative for 2026 Q3 – 2027 deliverables.

Key Achievements:

- Secured MD level stakeholder buy-in** for **future adoption**, positioned AI-driven fraud detection for WKO and DDS Operations as critical to business resilience and operational excellence.

Sr Product Leader (Consultant) | FIS (Fidelity International- Card Issuer Processing & Core Banking Platform amalgamation)- London, UK

May 2024 to Aug 2025

FIS is a global fintech and card issuer processing leader, offering core banking (OPF), Card Issuer Processing, Open Banking Hub, and Request to Pay (R2P) solutions

Role:

- Defined and drove the unified product vision and strategy for **converged OPF and Card Issuer Processing**, transforming client value propositions and enabling cross-sell opportunities.

Bikram Banerjee, continued.

- Championed **innovation**, launching new features and products to expand the **FIS OPF utility services portfolio**.
- Developed and prioritized the **OPF and Open Banking product roadmap**, aligning with strategic objectives.
- Served as the primary product leader for **key clients (MUFG, RBI Banks)**, ensuring solutions met client needs and delivered integrated **TWR Transaction warehouse Reporting** product offering.
- Built and managed strategic partnerships with vendors and third parties, strengthening the FIS ecosystem.
- **Mentor** and inspired product teams to execute on vision and deliver results.

Key Achievements:

- Secured major client wins (MUFG & RBI) through compelling product solutions and commercial leadership.
- Transformed the product roadmap based on client requirements, delivering live solutions for multiple banks.

Director Product Management | Visa Europe Ltd - Reading, London, UK

Jun 2019 to May 2024

Visa is a **world leader** in payments, facilitating more than **215 billion payments** transactions across more than **200 countries** each year.

Role:

- Develop Shaped and executed **product strategy** fully aligned with organizational vision, leveraging market intelligence, customer insights, and regulatory requirements to drive competitive advantage.
- **Built, inspired, and scaled high-performance product teams**, fostering a culture of innovation and collaboration across finance, sales, marketing, and product functions to deliver differentiated capabilities.
- Owned and communicated the product roadmap, strategically prioritizing initiatives to maximize business value and accelerate growth.
- Drove **cross-functional alignment** and execution, partnering with engineering, design, marketing, and sales to ensure seamless delivery of strategic objectives.
- Oversaw the end-to-end product lifecycle, consistently delivering high-impact solutions on schedule by embedding best-in-class development practices.
- Led **go-to-market** strategy, product positioning, and sales enablement, translating product vision into compelling value propositions for **successful launches** and sustained growth.
- Engaged senior stakeholders to capture feedback, resolve challenges, and ensure strategic alignment with business goals.
- Managed business KPIs, sales pipelines, and financials, optimizing resource allocation and commercial outcomes in partnership with regional and commercial teams.
- Directed complex client engagements, **RFI/RFP** responses, and consulting initiatives, delivering tailored product strategies and solutions that addressed critical business needs.
- Spearheaded the productization of **VRP & CVRP**, implementing robust **SCA** for recurring and **request-to-pay** use cases, advancing market leadership in the UK and Europe.

Project Profile: Global Sanction Screening for Visa Direct (Visa Card Payment) push payment platform

Visa has taken a major initiative to offer inflight sanction screening of Visa-direct push payments to enable issuers to meet regulatory requirements of anti-money laundering and prevention of fund transfers involving sanctioned persons, entities, or proceeds of crime screening. This initiative not only simplifies the regulatory obligations of Visa's clients but has a business case of growth of **168% increase in cross-border money transfer** revenue globally.

Key Achievements:

- Successfully led Product solutions, development and launch of a **regulatory Sanction screening** Product for Visa Direct (Visa Push payments), resulting in an increase in cross-border **payment revenue by 70%** in the **4 key pilot markets**.
- Successfully Launched **Card-As-Settlement** options leveraging Visa Card authorization platform and **DPS (Debit Processing Service – Issuer processing)** for **Bill Pay** use cases for enabling **Card payments** via Issuer Banking mobile app.

Project Profile: Real-time Payment Global Billpay, Request to Pay, Open Banking, VRP & CVRP, Visa Direct

Visa has taken a major initiative to create a new global payment ecosystem starting with B2C bill pay use cases, followed by SME, retail, e-com, m-com, and B2B use cases, where a consumer can pay by **their bank account**, **Open-Banking** via **Tink**, Mandate using **VRP**, or by **Card** or Other payment instruments (**rail-agnostic**) anywhere in the world using mobile banking app, wallet app or other payment interfaces. This global payment with flexible customisation allowed it to be launched in multiple markets. The initial target market is Nordic countries, such as the UK, the USA, and CEEMEA.

Key Achievements:

- Successfully led product **localisation**, **GTM playbooks**, GTM strategies, technical GTM, **implementation guide**, training materials and programs, **Implementation** planning, Product overview & Technical deep dive for **PoC, Pilot** and **General Availability** phases of the **product Launch** based on region-wise value propositions, i.e. for **Billpay** use cases in Canada (with **top 3 Banks**), and **SME** use case in **CEEMEA**.
- Led the development and launch of a ground breaking Request-to-Pay BillPay & SME product for Visa in multiple markets (US, Canada, UK, Nordic, Ukraine, Kazakhstan) across **5 continents**, resulting in a **50% increase** in market share in these markets.

Bikram Banerjee, continued.

Project Profile: Consultancies to multiple clients (for product strategy, solutions, RFI/RFP Bid response, Pilot rollout

Provided a full suite of consulting services, product strategy, solutions, and technology to help clients grow and solve some of their business or market problems. Provide consultancies to the client to develop and launch high-impact digital strategy to respond to RFI/RFP bids (for BankServ South Africa, P27, Pay.uk, TCH, CBUAR, Tesco Bank).

Key Achievements:

- Successfully led multiple **RFI/RFP bid initiatives** to offer market-leading product solutions in different markets for **payment operators or regulators** like **P27 (Nordic)**, **CBUAE (Dubai)**, **TCH (US)**, **BankServ (South Africa)** and **Pay.UK**
- Led the **Tesco Bank consultancy** by Visa for **non-card strategy** and automated card-top-up by leveraging Tink's open banking capabilities.

Project Profile: AI-enabled authorisation rate predictions (Data & Analytics) for Visa Direct push payment platform

Northern American Visa Direct clients are experiencing inconsistent authorisations for push payment transactions, which lead to unsatisfactory user experience and abandonment of customers. An Ideation stage product innovation was initiated to allow AI-enabled predictability of authorisation rate prediction for Visa Direct to reduce abandonment by end-users and increase revenue.

Key Achievements:

- Instrumental in leading product ideation of an exclusively innovative AI-enabled authorisation rate predictions product, which has a business case of an additional **800M annual revenue** opportunity.

Project Profile: Visa Alternate Payment strategy

Produce strategies to achieve strategic direction for short-term, mid-term, and futuristic non-card strategies by transitioning existing Visa services and introducing new ones.

Key Achievements:

- Successfully led a project and produced non-card strategy reports with **5B+** new **business opportunities** for Visa within 3 years.
